

**Statement of Technical Assistance
and
Other Assistance
FY 2019/20**

(From Bilateral and Multilateral Sources
Including INGOs)

**Government of Nepal
Ministry of Finance
May, 2019**

Preface

International development cooperation has an important role to play in Nepal's development efforts. Nepal's policy is to mobilize development finance through the national system. However, by virtue of their nature, many of the humanitarian assistance, small assistance in social sector and technical assistance targeted at capacity development, knowledge and technology transfer are being mobilized either directly by the development partners or through Non-Governmental Organizations. This type of assistance is not reflected in the annual budget. Since, it is very important to disseminate a complete set of information on development cooperation received by Nepal in order to promote transparency and accountability, such development cooperation is presented in the form of the 'Statements of Technical and Other Assistance' and published annually. Such assistance has been found crucial for enhancing capacity in areas of project design, implementation and management. Likewise, such assistance has been critical for humanitarian and social sector development.

This publication includes the projects/programs to be implemented in the Fiscal Year 2019/20 under technical and other assistance with details of major activities, total and annual budget, areas covered, executing agencies and supporting development partners.

The information received from development partners, reports from sectoral ministries and Social Welfare Council has been taken as the basic source while preparing this publication. Furthermore, information is complemented by the data reported in Aid Management Information System (AMIS) at the Ministry of Finance.

It is expected that this publication will be useful to the government agencies and development partners to implement and monitor the off-budget projects/programs as well as to harmonize the development cooperation among development partners. Likewise, information presented in this publication is expected to be beneficial to academia, researcher, and others who are interested about international economic cooperation in Nepal.
